

# Diamond Top Bollard 80mm, 100mm or 150mm Galvanised Steel

The AUTOPA Diamond Top Bollard is a square, galvanised mild steel bollard with a pressed steel, fully welded cap. The Diamond Top Bollard is an elegantly simple bollard, ideal for providing protection against unauthorised parking or access. The Diamond Top Bollard is ideal for use around pedestrian precincts, pavements, play and parking areas, as part of traffic calming measures, pedestrianisation schemes and as a deterrent to ram-raiders.

The Diamond Top Bollard is available in galvanised and galvanised & coated finishes.

Also available ragged for casting in to concrete, flanged for bolting down or removable. Fixing down bolts for the flanged version, and padlock to secure the removable version are available at an extra cost.
