

Fin Cycle Stand

Galvanised, Galvanised & Colour or Stainless

The Fin Cycle Stand offers site owners a secure and stylish cycle stand that complements every architectural style. The hooped design allows cyclists to secure both the frame and wheel of their bicycle to the stand using their own security lock and is suitable for securing two bicycles.

Manufactured from galvanised mild steel as standard, the Fin is also available in galvanised and coated and stainless steel finishes; RAL number must be specified at time of order. The Fin Cycle Stand can be supplied ragged for casting into new concrete or flanged for bolting onto existing concrete.

<u>Part Number</u>	<u>Description</u>	<u>Weight (kg)</u>
138 515 195	Galvanised - Concrete In	9kg
138 515 190	Galvanised - Bolt Down	8kg
