

Model F Cycle Holder Galvanised

The Model F Cycle Holder has a simple, functional design which supports the tyre of a bicycle. Manufactured from a 50mm flat steel plate and 12mm steel bar, the holder is galvanised for longevity.

Simple to install, the Model F Cycle Holder is designed to be bolted to a suitable existing wall, providing sites with a compact and cost effective cycle parking area. The holders should be spaced at least 610mm apart to allow bicycles to be easily parked and removed.

<u>Part Number</u>	<u>Description</u>	<u>Weight (kg)</u>
138 200 003	Model F	2kg

Product details

- 12mm diameter bar
- 346mm x 90mm x 212mm (height x width x depth)
- 3mm thick mild steel plate
- Each stand requires 2 bolts
- 90° angle to wall
