

Transport Cycle Stand Galvanised, Galvanised & Colour or Stainless

The Transport Cycle Stand is designed for use in high footfall public areas. Comoplete with a 150mm signage plate 100mm above the ground, which doubles as a functional tapping rail for easy identification by visually impaired pedestrians. The signage plate incorporates the Cycle Parking 'P' and cycle symbol signs as standard on one side only, ensuring the parking area is easily identifiable at all times.

Manufactured from galvanised mild steel, the design of the Transport Cycle Stand allows cyclists to secure both the frame and wheel of their bicycle simultaneously using their own lock. Each stand is suitable for securing up to two bicycles.

Supplied galvanised and ragged as standard; flanged, colour coated and stainless steel versions are also available. RAL number must be specified at time of order. Reflective bands can be added to the cycle stand to increase visibility.

Part Number	Description	Weight (kg)
138 515 260	Galvanised - Concrete In	13kg
138 515 265	Galvanised - Bolt Down	12kg
138 515 261	Galvanised & Black - Concrete In	13kg
138 515 266	Galvanised & Black - Bolt Down	12kg
138 515 262	Galvanised & Colour - Concrete In	13kg
138 515 267	Galvanised & Colour - Bolt Down	12kg
138 515 264	Stainless Steel Grade 304 - Concrete In	12kg
138 515 269	Stainless Steel Grade 304 - Bolt Down	11kg

Product details

- 48mm diameter tube
- 750mm x 800mm (height x length)
- Concrete in 300mm (below ground)
- Round flange plate – 133mm x 5mm
- Each stand requires 6 bolts (bolt down)
- Sign plate - 150mm high - Symbols on one side only

Installation & use

Bolt down to a suitable concrete surface.
