

Carlton Seat 1200mm

Galvanised, Galvanised & Colour or Stainless

Robust and aesthetically striking, the Carlton Seat is designed for use in high traffic areas such as schools, parks and town centres. The simple design will complement all architectural styles and will continue to look good for many years with only minimal maintenance.

The Carlton Seat is supplied in galvanised mild steel, or stainless steel. Galvanised and powder coated is an optional extra (RAL number must be stated at time of order).

Available concrete in and bolt down.

Product details

- 1200mm x 562mm x 840mm (length x width x height)
- 475mm (seat height)
- Galvanised/galvanised & coated finish complete with plastic end caps
- Concrete in 300mm (below ground)
- Round flange plate – 133mm x 5mm
- Each seat requires 6 x 12mm bolts

Installation & use

Supplied fully welded for easy installation on site.

Bolt down versions require bolting to an appropriate concrete surface by means of 12mm bolts.

Concrete in versions require an excavated hole for installation.

Clean off any concrete splashes after installation. Always allow sufficient time for concrete to cure before usage.

These products are guaranteed for 12 months (if installed and used correctly).
