

An AUTOPA Tree Grille is an essential part of an urban landscape. Manufactured from galvanised mild steel which is then coated black as standard, these grilles will prevent delicate roots from being damaged by passing traffic, both vehicular and pedestrian. The contemporary styling makes them ideal for use on any site.

Supplied in two parts and are joined together using bolts. Complete with a frame which is required to stabilise the grille and prevent it from sagging around the tree.

Other sizes are available on request.

Pictured with the AUTOPA Tree Guards (available extra).

Part Number	Description	Weight (kg)
138 124 103B	Vine - Galv & Black	85kg
138 124 113B	Ivy - Galv & Black	67kg

Installation & use

Tree Grilles require bolting down to a level surface of at least 1200mm². Tree Grilles to be flush with the ground level.

Frames require bolting to a suitable foundation by means of 4 x M10 security dome head bolts.

Tree Grilles require bolting to a frame using 8 x M10 security dome head bolts.

If concreting the frame in, bend tabs down before setting in the ground.

This product is guaranteed for 12 months (if installed and used correctly).
